### Credit and Grading System

(W.e.f. June, 2015)

- **Title of the Course:**B.Sc.- Part II
- **Subject :** \_\_\_\_\_Botany\_\_\_\_\_
- **The Credit and Grading System :**
- 

With the view to ensure worldwide recognition, acceptability, horizontal as well as vertical mobility for students completing under graduate degree, Solapur University has implemented Credit and grading system of Evaluation at Undergraduate level.

Credit is a numerical value that indicates student's work load (Lectures, Lab work, Seminars, Tutorials, Field work, etc.) to complete a course unit. In most of the universities 15 contact hours constitute one credit. The contact hours are transformed into Credits. As per present norms, there are 4 contact hours per paper (subject) per week which works out to be 60 contact hours per paper (subject) per semester.

In Solapur University, for B. Sc.-II, there are 3 optional subjects and Environmental Studies. For B. Sc.-II, there are 6 contact hours per paper (subject) per week for each optional subject. Therefore, total contact hours per week are 18. Each subject has 90 contact hours, which are transformed into 6 credits. As there are 4 contact hours per week for Environmental Studies, 4 credits shall be assigned for Environmental Studies.

Moreover, the grading system of evaluation is introduced for B. Sc. course, wherein process of Continuous Internal Evaluation is ensured. The candidate has to appear for Internal Evaluation of 30 marks and University Evaluation for 70 marks. It is 70 + 30 pattern of evaluation. It is applicable for theory and practical as well. The details regarding this evaluation system are as under.

- **Conversion of marks into Grades :**

A table for the conversion of the marks obtained by a student in each paper (out of 100) to grade and grade points is given below.

Sr. No	Range of Marks	Grade	Grade Point
1.	80-100	O	10
2.	70-79	A+	9
3.	60-69	A	8
4.	55-59	B+	7
5.	50-54	B	6
6.	45-49	C+	5
7.	40-44	C	4
8.	<39	FC	0 (Failed in Term Exam)
9.	<39	FR	0 (Failed in Internal Assesment)

#### 1. Grade Point Average at the end of the Semester (SGPA)

$$(G_1 \times C_1) + (G_2 \times C_2) + \dots$$

$$\text{SGPA} = \frac{\sum C_i}{\text{Total Credits}}$$

$\sum C_i$

( $\sum C_i$ - The total number of credits offered by the student during a semester)

**2. Cumulative Grade Point Average (CGPA)**

$$(G_1 \times C_1) + (G_2 \times C_2) + \dots$$

$$\text{CGPA} = \frac{\sum C_i}{\text{Total Credits}}$$

$\sum C_i$

$\sum C_i$  - the total number of credits offered by the student upto and including the semester for which CGPA is calculated.)

**3. Final Grade Point Average (FGPA)** will be calculated in the similar manner for the total number of credits offered for completion of the said course.

Where:  $C_i$ : Credits allocated for the  $i$ th course

$G_i$ : Grade point scored in  $i$ th paper (Subject)

**4. Conversion of average grade points into grades:**

<b>SGPA/CGPA/FGPA</b>	<b>Letter Grade</b>
<b>9.5 - 10</b>	<b>O</b>

### **PRACTICALS IN BOTANY AT B.Sc. Part – II**

**(w.e.f.- June 2015)**

**Botanical excursions** – One teacher along with a batch not more than sixteen students be taken for Botanical excursions to places of botanical interest, one in each term. If there are female students in a batch of sixteen, one additional lady teacher is permissible for excursion. Each excursion will not be more than 5 days during college working days. T.A. and D.A. for teachers and non teaching staff participating in the excursions should be paid as per the rules. The tour report duly certified by the concerned teacher and the head of the department should be submitted at the time of practical examination.

Practical – I and II are to be covered in 25 practicals each. These practicals are to be performed by the students. Each practical is to be supplemented by permanent slides, preserved / fresh specimens / materials, charts, herbarium sheets, wherever necessary.

Every candidate must produce a certificate from Head of the Department in his / her college stating that he / she has completed practical course in a satisfactory manner as per the lines laid down by academic council on the recommendations of Board of Studies in Botany. The student should record his / her observations and report of each experiment should be written in the Journal.

The Journal is to be signed periodically by teacher in charge and certified by Head of the Department at the end of the year. Candidates have to produce their certified journal and tour reports at the time of practical examination. A candidate will not be allowed to appear for the practical examination without a certified journal, otherwise a candidate must produce a separate certificate of his / her regular attendance for practical course and completion of the same signed by the concerned teacher and Head of the Department.

### Credit and Grading System

(W.e.f. 2015-16)

- **Title of the Course:** B.Sc.- Part II
- **Subject :** Zoology
- **The Credit and Grading System :**
- 

With the view to ensure worldwide recognition, acceptability, horizontal as well as vertical mobility for students completing under graduate degree, Solapur University has implemented Credit and grading system of Evaluation at Undergraduate level.

Credit is a numerical value that indicates student's work load (Lectures, Lab work, Seminars, Tutorials, Field work, etc.) to complete a course unit. In most of the universities 15 contact hours constitute one credit. The contact hours are transformed into Credits. As per present norms, there are 4 contact hours per paper (subject) per week which works out to be 60 contact hours per paper (subject) per semester.

In Solapur University, for B. Sc.-II, there are 3 optional subjects and Environmental Studies. For B. Sc.-II, there are 6 contact hours per paper (subject) per week for each optional subject. Therefore, total contact hours per week are 18. Each subject has 90 contact hours, which are transformed into 6 credits. As there are 4 contact hours per week for Environmental Studies, 4 credits shall be assigned for Environmental Studies.

Moreover, the grading system of evaluation is introduced for B. Sc. course, wherein process of Continuous Internal Evaluation is ensured. The candidate has to appear for Internal Evaluation of 30 marks and University Evaluation for 70 marks. It is 70 + 30 pattern of evaluation. It is applicable for theory and practical as well. The details regarding this evaluation system are as under.

- **Conversion of marks into Grades :**

A table for the conversion of the marks obtained by a student in each paper (out of 100) to grade and grade points is given below.

Sr. No	Range of Marks	Grade	Grade Point
1.	80-100	O	10
2.	70-79	A+	9
3.	60-69	A	8
4.	55-59	B+	7
5.	50-54	B	6
6.	45-49	C+	5
7.	40-44	C	4
8.	<39	FC	0 (Failed in Term Exam)
9.	<39	FR	0 (Failed in Internal Assessment)

#### 1. Grade Point Average at the end of the Semester (SGPA)

$$(G_1 \times C_1) + (G_2 \times C_2) + \dots$$

$$\text{SGPA} = \frac{\dots}{\dots}$$

$$\Sigma C_i$$

( $\Sigma C_i$ - The total number of credits offered by the student during a semester)

#### 2. Cumulative Grade Point Average (CGPA)

$$(G_1 \times C_1) + (G_2 \times C_2) + \dots$$

$$\text{CGPA} = \frac{\dots}{\dots}$$

$$\Sigma C_i$$

$\Sigma C_i$  - the total number of credits offered by the student up to and including the semester for which CGPA is calculated.)

3. **Final Grade Point Average (FGPA)** will be calculated in the similar manner for the total number of credits offered for completion of the said course.

Where:  $C_i$ : Credits allocated for the the course

$G_i$ : Grade point scored in the paper (Subject)

4. **Conversion of average grade points into grades:**

<b>SGPA/CGPA/FGPA</b>	<b>Letter Grade</b>

## **General Guidelines for Credit and Grading System B.Sc.II**

1. The University follows Semester system
2. An academic year shall consist of two semesters
3. Each B.Sc. course shall consist of three years i.e. six semesters
4. Environmental Studies paper shall remain compulsory for B.Sc.Part- II students in IV<sup>th</sup> Sem.
4. B.Sc.Part-II shall consist of two semesters: Semester III and Semester IV.

In semester –III, there will be two theory papers of 100 marks for each subject. There shall be three optional science subjects. Similarly, in semester –IV there will be two theory papers of 100 marks for each subject. There shall be three optional science subjects and Environmental Studies paper compulsory for every student in semester IV.

The scheme of evaluation of performance of candidates shall be based on University assessment as well as College internal assessment as given below. For B.Sc.Part II Sem III & IV the internal assessment will be based on Unit tests, Home assignment, viva, practicals, Project Work etc as given below. Practical course examination of 200 marks for each subject shall be conducted at the end of IV<sup>th</sup> semester. The practical examination of 200 marks shall also consist of 140 marks for University practical assessment and 60 marks for college internal assessment.

The process of evaluation for Environmental Studies shall be based on University theory examination of 70 marks and 30 marks internal assessment. The internal assessment for environmental studies shall be based on internal test/ home assignment/tutorial of 10 marks and project work for 20 marks.

For University practical examination out of two examiners, one examiner will be internal and another examiner will be External. Both examiners will be appointed by the University. The internal practical assessment shall be done as per scheme given below.

### **5. Scheme of evaluation:**

As per the norms of the grading system of evaluation, out of 100 Marks, the candidate has to appear for College internal assessment of 30 marks and external evaluation (University Assessment) of 70 marks. The respective B.O.S. may decide the nature of College internal Assessment after referring to the scheme given below or may be used as it is.

## **Excursion Tour : Six days tour is recommended**

As a part of practical, visit to sea-shore/any suitable place of Zoological interest (Visit to sea-shore, Fishery Centers, National Parks, Wildlife Sanctuaries, National Research Institutes, Central Research Institutes, Zoological Survey of India, Fresh Water Ecosystem etc. to study animal diversity and economic Zoology. A report is to be submitted at the time of Practical examination.

### **Note:**

As per the guidelines of **UGC notification number F.14-6/2014(CPP-II) dated 1<sup>st</sup> August, 2014** it is now essential to make necessary modifications to stop dissection and promote and orient students towards the knowledge component rather than skill development. However, ITC based virtual dissections are promoted. Now, the responsibility to discontinue dissections and use of animals in experiments totally rests on concerned authorities of respective colleges/Institutes. As per the notification it is important to encourage the field trips and observations without disturbing the biodiversity.
